**How to Catch a Cheater** - Drug users are finding it more and more difficult to cheat a drug test. That's because both collection sites and laboratories are adapting their procedures to keep cheaters from passing their drug test. Do attempts to cheat still take place? You bet they do! All the time! If you 'Google' "How to Beat a Drug Test" you will get over 34,600,000 hits. However, the odds of successfully cheating a drug test today are very long and getting longer. This course will show some of the most common methods cheaters use and how collectors, using proper procedures, are able to catch cheaters!
